

ISI Judging On Tablet- Set Up & Troubleshooting

Setting Up Tablets

1. Go to Setting tab / check IP address of computer (see below)
2. Set tablet password to 1-2-3-4
3. Load correct version of The Edge for competition

Running Tablets

4. Make sure The Edge program is open on base computer
5. Open Accounting / List tablet connections - on header is the computer IP address
6. Make sure the screen for Judge Scores is open – under Options / Accounting Options – this must stay open at all times.

Loss of Connection

1. When connection is lost on tablet follow these steps: (you may repeat steps 1-3 several times before step 4)
 - a) Tap “Not Connected”
 - b) Make tablet sleep / Reopen / Tap “Not Connected”
 - c) Hit Setting Tab (on right) – check (or un-check) “Referee tablet” box / click on a “Judge tab” / go back and un-check (or check) Referee tablet box
 - d) Restart tablet by holding down sleep button until it prompts a restart
2. If it’s a bigger problem – re-check, then delete & re-type IP address of base computer and password. Re-start tablets
3. As a last resort – only during resurface – close/open edge program and/or restart office computer
4. Repeat Process, if needed

Wrong Event or Event won’t come up

1. All 3 judges should switch to paper judge forms
2. While doing Paper – Close The Edge program and then re-connect each tablet
3. If successful, you may switch back to tablet by doing the following: On Referee Tablet – To Get Next Event, DO NOT CLICK “Get Next Event”, rather type in the event number you want in box, then click “DONE” on keyboard.

Call on the walkie-talkie immediately if there is any problem with any judge tablet.
