

2022-2023 ISI Collegiate Skating Team Registration Form

Do you have ice skaters attending your school? Going to college doesn't mean having to put ice skating on hold. It's a great way to stay fit and continue enjoying the sport you love. Increase school spirit and form a club to make your own **ISI Collegiate Skating Team**. This form is to be used by **accredited colleges or universities only** to register **FREE OF CHARGE** for the 2022-23 skating season ending 8/31/23.

Benefits for the skaters:

- Continue to participate and enjoy a sport they love.
- Participate in ISI competition events and compete with new school friends and colleagues.
- Stay fit while you take advantage of this recreational participation option open to skaters of all ages & ability levels.

Benefits for the school:

- A chance for students to continue their participation in ice skating while representing your school in ISI competitions throughout the academic year.
- Another healthy sport option for skaters of all ages and ability levels. With ISI's philosophy of "something for everyone", you can also encourage new/beginner skaters to join your school's skating team.
- Recognition of your school's participation in local, district and national ISI competition events.
- Having a figure skating program has proved to be a great recruiting tool for many schools. When skaters stay on the ice to participate in ice sports – we all become winners!

Collegiate team members must skate at an ISI administrative member facility or club and have their ISI tests registered through that current ISI administrative member. All Collegiate Team members must be a current Individual member of the ISI. Online membership registration is available at www.skateisi.org

After this Collegiate Team registration form is processed by the ISI office, team members can choose to represent your college or university team for any and all ISI competition events during the current skating season from Sep. 1 through Aug. 31.

For information on upcoming competition events and testing requirements please check www.skateisi.org
